

RoHS Certificate of Compliance

Restriction of the use of certain Hazardous Substances (RoHS)

Directive (EU) 2015/863 (the RoHS 3 Directive) restricts the use of the hazardous substances listed below in electrical and electronic equipment.

Based on information provided by our suppliers and customers, Imperial Electronic Assembly, Inc. designates the products supplied to your company as **RoHS 3 compliant** for orders placed on or after the date of this certificate. All RoHS compliant manufacturer part numbers are used in the building of this assembly, and were provided by the customer and referenced in their Bill of Materials (BOM).

RoHS 3 compliance includes the following:

- Our supplier has confirmed the compliance status of the relevant products to us.
- We apply rigorous and ongoing processes to confirm and document this.
- All process's and materials used in the process are RoHS 3 compliant

Confirmation of compliance status by our suppliers is either because the products do not contain any of the restricted substances referred to in the RoHS 3 Directive at concentrations in excess of those permitted under the RoHS 3 Directive. Or because removal of the restricted substances is not technically possible and their existence in the products at levels in excess of these concentrations is allowed as one of the particular exemptions listed in the Annex to the RoHS 3 Directive.

For these purposes, the maximum concentration values of the restricted substances by weight in homogenous materials are:

Lead	0.1%
Mercury	0.1%
Hexavalent Chromium	0.1%
Polybrominated biphenyls (PBB)	0.1%
Polybrominated Diphenyl Ethers (PBDE)	0.1%
Cadmium	0.01%
Bis (2-Ethylhexyl) phthalate (DEHP)	0.1%
Benzyl butyl phthalate (BBP):	0.1%
Dibutyl phthalate (DBP): Diisobutyl	0.1%
phthalate (DIBP):	0.1%

Applicable Customer Part Number(s):

Claiming: No Exemptions or Exemption(s):
